BUILDING THE FUTURE OF AGENTIC ENTERPRISES

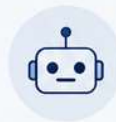

AI PRODUCTS | WORKFLOW AUTOMATION | AGENTIC APPLICATIONS | DIGITAL WORKFORCE TRANSFORMATION

FROM AUTOMATION TO AUTONOMOUS EXECUTION

THE SHIFT WE'RE MAKING

TRADITIONAL AUTOMATION

- Rule-based
- Task specific
- Human triggered
- Limited context

AGENTIC ENTERPRISE

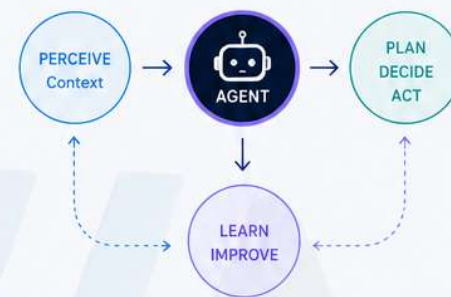

- Goal-driven
- Context aware
- Autonomous execution
- Continuous learning

Agents don't just follow instructions. They understand goals, make decisions and deliver outcomes.

WHAT ARE AGENTIC ENTERPRISES?

Enterprises where AI agents—powered by data, models and tools—plan, decide and act across business processes to achieve outcomes with minimal human intervention.

“The outcome matters. The agent figures out how.”

THE VALUE WE UNLOCK

OUTCOMES OVER OUTPUTS

Focus on business results, not just tasks completed.

SCALABLE PERFORMANCE

Agents work 24/7, across functions and geographies.

OPERATIONAL EFFICIENCY

Reduce cycle times, costs and manual effort.

BETTER DECISIONS, FASTER

Real-time insights and autonomous decision-making.

EMPOWERED PEOPLE

Humans focus on strategy, creativity and relationships.

THE BUILDING BLOCKS

DATA FOUNDATION

High-quality, accessible and governed data is the fuel for intelligent agents.

MODELS & INTELLIGENCE

LLMs, ML models and domain knowledge power reasoning and decision-making.

TOOLS & INTEGRATIONS

APIs, systems and enterprise applications are the hands of the agent.

GOVERNANCE & GUARDRAILS

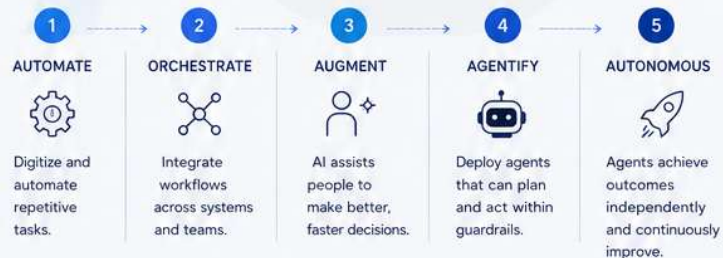

Security, compliance and responsible AI keep agents aligned and trustworthy.

HUMAN-IN-THE-LOOP

Humans set direction, provide feedback and handle exceptions.

OUR JOURNEY TO AGENTIC MATURITY

Start small. Prove value. Scale with confidence. The future is not fully autonomous overnight—it's built step by step.

LET'S BUILD THE FUTURE—TOGETHER

Agentic enterprises don't replace people. They elevate them. Together, we can build a digital workforce that's intelligent, resilient and outcome-driven.

Better decisions. Faster outcomes. Endless possibilities.

THE FUTURE IS AGENTIC.

The question is not if, but how fast we build it.

THE PROBLEM

Enterprises Are Drowning in Operational Complexity.

Silos, systems, and manual work are slowing teams down, driving up costs, and preventing businesses from moving faster.

COMPLEXITY IS EVERYWHERE

THE IMPACT IS REAL

ROOT CAUSES

Complexity doesn't just slow you down.
It holds you back.

To compete in a fast-moving world, enterprises need a new operating model—one that simplifies, automates, and empowers at scale.

The future belongs to organizations that can turn complexity into clarity and execution into a **competitive advantage**.

WHY NOW?

The Rise of Agentic Enterprises

Technology evolution has reached an inflection point.
Enterprises can now move from automation to autonomous outcomes.

TECHNOLOGY EVOLUTION: THE BUILDING BLOCKS ARE IN PLACE

WHY NOW?

- Breakthroughs in GenAI**
Large language models, reasoning, and multi-modal capabilities
- Explosion of Data**
More data, better quality, and real-time availability
- Maturing Cloud & APIs**
Composable, scalable, and always-on infrastructure
- Demand for Outcomes**
Business pressure to do more with less—faster
- Labor & Talent Shifts**
Scarcity of skills, rising costs, new ways of working

THE SHIFT: FROM AUTOMATION TO AUTONOMOUS EXECUTION

THE IMPACT: UNLOCKING A NEW ERA OF VALUE

- EXPONENTIAL PRODUCTIVITY**
Agents work 24/7, across functions—amplifying human impact.
- OPERATIONAL RESILIENCE**
Adaptive, always-on operations that reduce risk and drive continuity.
- SUPERIOR CUSTOMER EXPERIENCE**
Faster, personalized, and proactive experiences at scale.
- ACCELERATED INNOVATION**
Free teams from repetitive work to focus on creativity, strategy, and growth.
- SUSTAINABLE ADVANTAGE**
Organizations that adapt now will lead the next decade.

The future belongs to enterprises that **act now.**

Agentic enterprises don't just use technology—they orchestrate it to achieve extraordinary outcomes.

WHO WE ARE

Building Intelligent Solutions. Delivering Real Outcomes.

We are a technology and solutions company with **25+ years** of expertise in delivering innovative, scalable and reliable solutions that drive business transformation.

25+
Years

of Expertise
in Technology

25+
Professionals

Passionate. Skilled.
Outcome-focused.

20+
Clients

Trusted by enterprises
across industries

Multiple
Countries

Global delivery,
local understanding

One
Mission

To enable businesses
to work smarter,
move faster and
grow stronger

OUR VISION

To be a trusted technology partner for enterprises worldwide, empowering them to achieve intelligent outcomes and sustainable growth.

OUR MISSION

To deliver innovative, reliable and value-driven solutions by combining deep technology expertise with domain knowledge—helping businesses transform complexity into competitive advantage.

OUR EXPERTISE

Over two and a half decades of deep technology expertise combined with strong domain knowledge to solve real business challenges.

Digital Engineering
Modern applications, microservices,
cloud-native, API-first

Data & Analytics
Data engineering, analytics,
AI/ML, insights that drive action

Automation & Integration
Workflow automation, RPA, enterprise
integration, and process optimization

Cloud & DevOps
Cloud strategy, migration, DevOps,
SRE and managed services

Product Development
End-to-end product engineering
from idea to scale

Quality & Security
Engineering quality in every layer
with security by design

DOMAIN KNOWLEDGE THAT DELIVERS IMPACT

Deep industry understanding helps us build solutions that are practical, compliant and future-ready.

FINTECH

Digital banking, payments, lending, wealth management, regulatory compliance, and customer experience platforms.

SUPPLY CHAIN

End-to-end supply chain visibility, demand planning, procurement, supplier collaboration, and risk management.

LOGISTICS

Transportation management, route optimization, fleet management, last-mile delivery, and real-time tracking.

WAREHOUSE MANAGEMENT SOLUTIONS

Inventory accuracy, inbound/outbound management, order fulfillment, 3PL operations, and labor optimization.

OUR APPROACH

Understand

We listen, analyze and understand your business goals and challenges.

Innovate

We design solutions that are innovative, scalable and secure.

Build

We engineer with quality, agility and a focus on measurable outcomes.

Deliver

We deliver on time, with transparency and reliability.

Evolve

We continuously optimize and evolve solutions for long-term success.

WHY PARTNER WITH US?

- ✓ 25+ years of proven technology excellence
- ✓ Deep domain expertise across key industries
- ✓ Customer-first approach with measurable outcomes
- ✓ Agile delivery with global standards
- ✓ Long-term partnership mindset
- ✓ Innovation-driven and future-focused

More than 25+ years of expertise.
Domain knowledge that drives impact.

Together, we transform complexity into clarity and vision into value.

25+
Years
of Expertise

25+
Professionals

20+
Clients

Multiple
Countries

OUR VALUES

Integrity

Excellence

Collaboration

Ownership

Innovation

Better Solutions. Smarter Operations. Stronger Enterprises.

End-to-End Solutions. Built for **What's Next.**

We partner with enterprises to modernize operations, automate intelligently, and build agentic solutions that drive measurable business outcomes.

OUR CORE SERVICE OFFERINGS

<p>01</p>  <h3>Digital Engineering</h3> <p>Modern, scalable, and secure applications engineered for performance and agility.</p> <ul style="list-style-type: none"> • Custom Application Development • Microservices & API Development • Cloud-native Development • Legacy Modernization 	<p>02</p>  <h3>Data & Analytics</h3> <p>Turn data into decisions with intelligent insights and advanced analytics.</p> <ul style="list-style-type: none"> • Data Engineering • BI & Visualization • Advanced Analytics • AI/ML & Predictive Modeling 	<p>03</p>  <h3>Automation & Integration</h3> <p>Streamline operations and connect systems with intelligent automation and seamless integration.</p> <ul style="list-style-type: none"> • Workflow Automation • RPA & Intelligent Automation • API Integration • Process Optimization 	<p>04</p>  <h3>Cloud & DevOps</h3> <p>Build, deploy, and scale with resilient cloud platforms and DevOps excellence.</p> <ul style="list-style-type: none"> • Cloud Strategy & Migration • DevOps & CI/CD • Infrastructure as Code • SRE & Managed Services

BUILT FOR AGENTIC ENTERPRISES

- ✓ Intelligent Automation at Scale
- ✓ Real-time Decisions with Trusted Data
- ✓ Continuous Learning & Adaptation
- ✓ Business Outcomes, Delivered Faster

Modern Stack. Intelligent Solutions. Measurable Impact.
Powering your journey to an Agentic Enterprise.

AGENTIC OPERATING SYSTEM

Addatto Agentic Architecture

The Operating System for **Agentic Enterprises**.

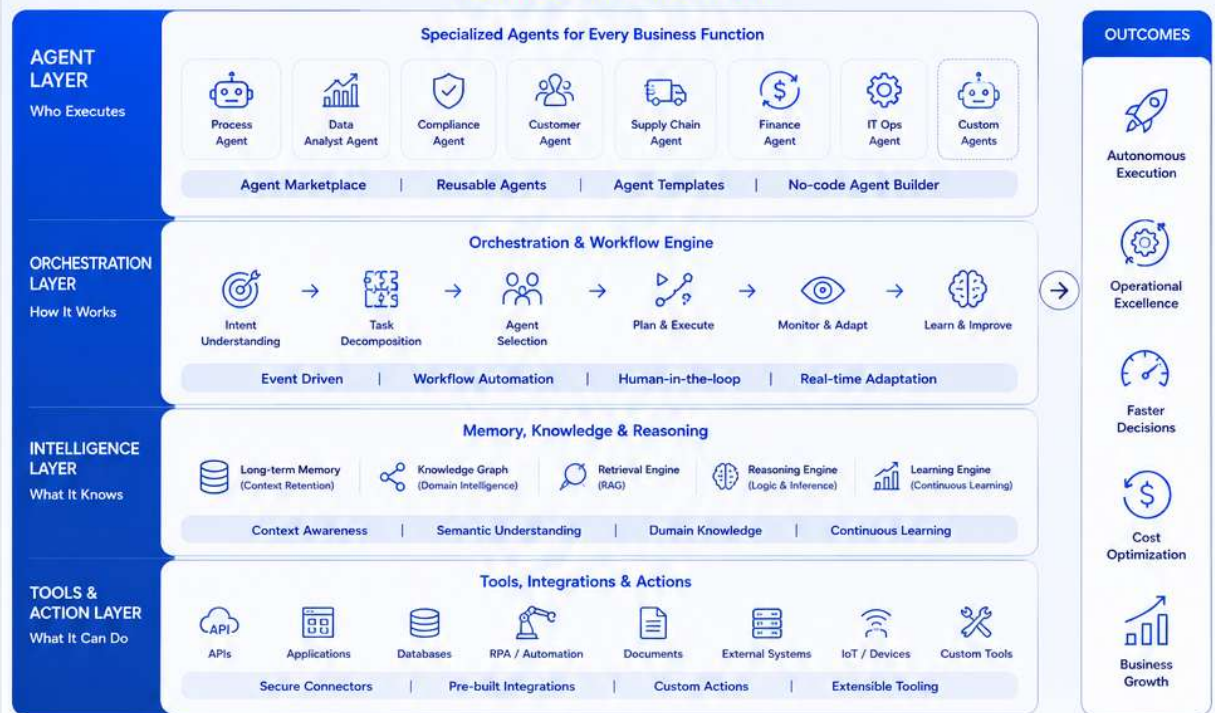

Our Agentic Operating System orchestrates intelligent agents, data, tools, and workflows to autonomously execute, learn, and deliver business outcomes.

AGENTIC EXPERIENCE LAYER

Intuitive interfaces for humans & agents to interact, collaborate and achieve outcomes.

AGENTIC OPERATING SYSTEM

TRUST & GUARDRAILS

ENABLING FOUNDATION

BUILT FOR AGENTIC ENTERPRISES

- ✓ Modular, open and extensible architecture
- ✓ Accelerate automation and innovation
- ✓ Enterprise-grade security and governance
- ✓ Deliver measurable business outcomes
- ✓ Built for scale, performance and reliability

Addatto Agentic Architecture – Powering the Future of Intelligent, Autonomous Enterprises.

BUSINESS IMPACT

Real Impact. Measurable Outcomes.

Our agentic solutions drive tangible business impact by optimizing operations, enhancing agility, reducing costs and accelerating growth.

IMPACT THAT MATTERS

 20-60% Improvement in Operational Efficiency	 15-35% Reduction in Operational Costs	 50%+ Faster Decision and Cycle Time	 30-50% Increase in Employee Productivity	 10-25% Revenue Growth Enablement	 Stronger Compliance, Risk Management & Security
